# Problem statement

The **www.musicworld** website is designed for everyone love music to immersed yourself in a wonderful space, because music has the power to cause emotions to well up within us, these feelings colour our moods, affect our behavior. It is certain that music has sexy extremly and ability touching the quietest in soul of us, discover every corner in emotion of us. Music is mean of communication extremly flexible. There are some speech can't say into words, no problem! Let music help you, replace you say words of love, thanks, sorry. More special music replace someone who appease your broken and lonely heart. Hence it was felt that it will be good if there is one source where one can get all the related information. In today world internet is the best source for information sharing so a group of people took initiative in this and reached to a conclusion that a website is the best solution. The website is to be developed for the Windows Platform using HTML5, CSS3, JavaScript and Geolocation. The site should work well in all leading browsers including Chrome, Opera, Firefox etc.

- Use colorful lively images and use tool searches artist, album, release date of album..
- The user can register to download album
- Everything must be designed friendly for everyone

After reading the project specification, the developer states the scope of the project very briefly:

- Creating the website, it has name “musicworld”.It is designed for the human for Listening Online included categories of music Rock, Jazz, Pop, Rap, Classical....in more creative.By using colorful images and use tool searches to the user can use more easily.
- Website musicwold has decided to launch the Web page using HTML5,CSS3,JavaScript , jQuery 3.3.1, Bootstrap 4.3 , Fontawesome 5.7.2, Geolocation API (Googlemaps API), and HTML Storage(Local and Sesion Storage).

# Customer Requirement Specification (CRS)

**Client:** Everyone

## Business/Project Objective:

- Creating the website have the most friendly
- Creating a space to people can to blend into music, search for related information one a way the most easily

## Inputs provided by the client:

- Inputs to the existing system:
  - General information about website:
    - Logo, banner, slogan, purpose of website
    - Information of members in team who create this website
    - Information about type of music
  - System:
    - Images, audio, songs, albums, information, fonts and typography
    - Searches
  - User provide:
    - Registered User Information ( username, password, name, gender, birthday, email, phone, address)
    - Feedback of user

## Output form the existing system:

- The songs, Albums
- Details information about songs, albums, artists
- Result of searches

## Process involved in the application:

- Show images, songs, albums, information details,...for searches
- Check login and register information from user
- User must login successfully to do download album
- Check the searches of user and show result
- Get feedback from user

**Expected delivery dates:7-4-2020**

### List of deliverables:

- Completed application
- Project documentation
- Installation Guide
- User Manual
- Designing File

### Hardware Requirements:

	<b>Client</b>	<b>Server</b>
<b>CPU</b>	Intel Pentium 4 processor or higher	Intel Xeon E3 or higher
<b>Ram</b>	2GB or higher	8GB Ram or higher
<b>VGA</b>	Intel HD Graphics 2000 or higher	-
<b>Hard Disk</b>	80GB or higher Network Card	500GB or higher Network Card

### Software Requirements:

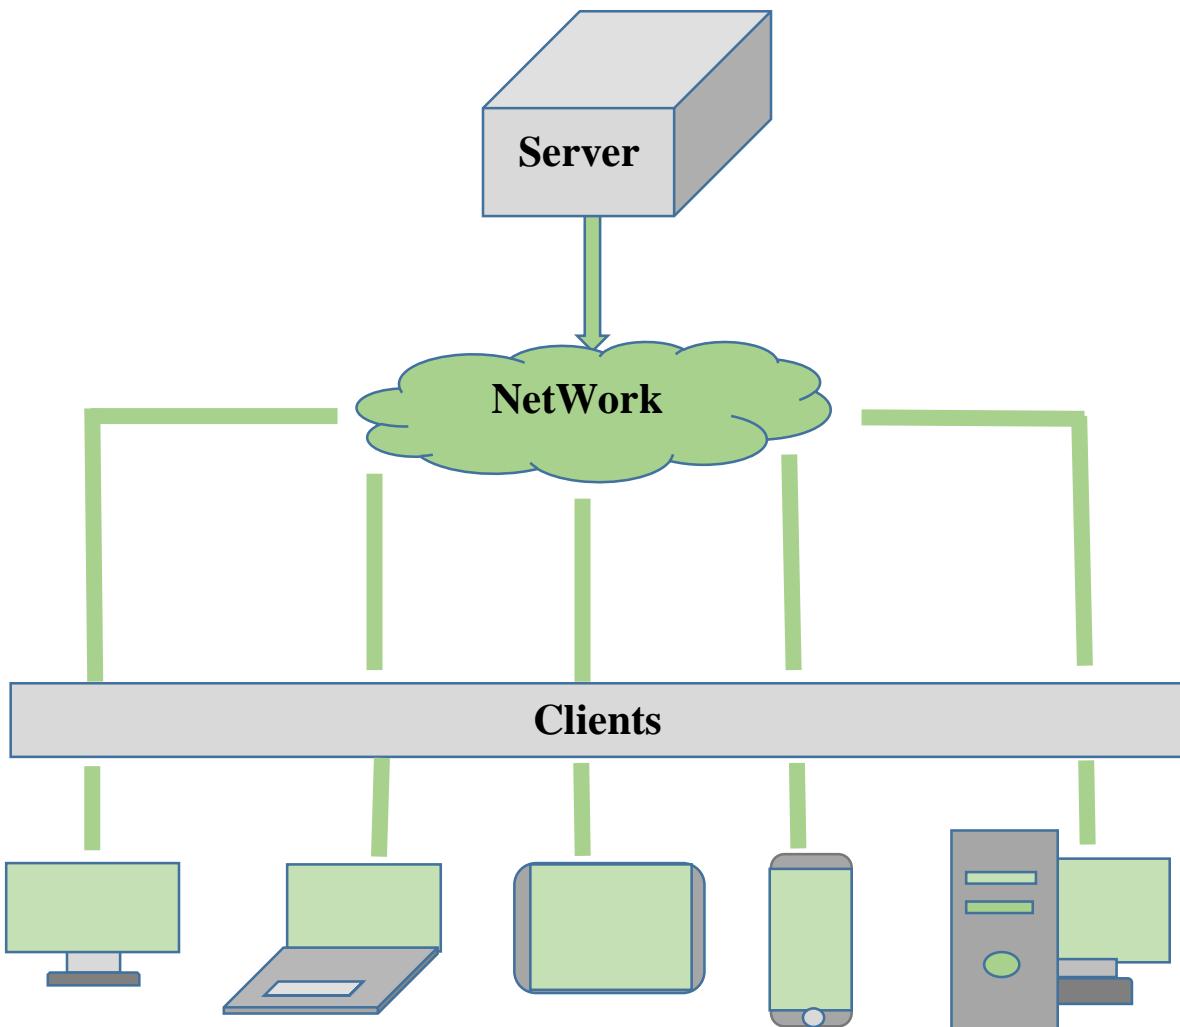

<b>Client</b>	<b>Server</b>
Windows 7 OS or higher Any browser support HTML5, CSS3 and JavaScript (Recommend Google Chrome, Opera)	Windows Server 2008 R2 or higher Web serve

**Scope of the Work (in brief):****The Website is to be created based on the following requirements:**

- A Menu should be created which would categorize all the information about the features provided in the Site
- The categories of music ( Rock, Jazz, Pop, Rap, Classical)
- These categories can be further divided into subcategories.
- On clicking on any of the category would be able to give all the related information as
- Artists details (Personal details, Career achievements , Collection)
- Various albums in the respective category ( Album release details , Artists, Songs)
- Instruments related to the category
- Events taking place in that category
- Site should also be displaying new releases, best of the year, collections from top composers.
- It should also display the reviews about various albums or artists under reviews section.
- User should be able to perform searches ( Artists, Album, Release date of album)
- There would be two types of users: registered and non-registered users
- Registered users should be able to download the complete album whereas non-registered users should only be able to listen the album but no downloading allowed for them.
- Site should also display the related articles.

## Architecture and Design of the System

The application will have a client-server architecture.

"There are some things that are speechless, no problem! Let's music help you, replace you say words of love, thanks, sorry."

"And today it's a nice sunny day and it would be a pity if you didn't listen to your favorite song!"

New release

Hi There!!!What kind of music do you

Hi There!!!What kind of music do you like? There are categories of pop music and jazz, rap ,rock,classical here.

Category

Music has the power to cause emotions to well up within us.

These feelings are gripping - often irresistible - and seem to emerge from nowhere.

Music has the ability to inevitably tap the still, mysterious deep well of our emotions.

Figure 31 –Feedback page on PC

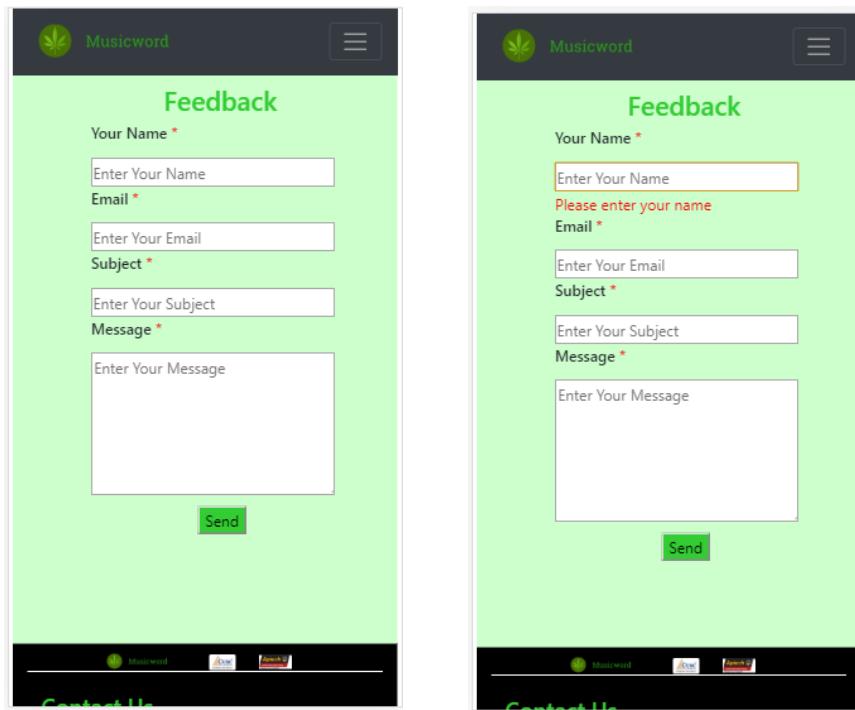

The screenshot shows the 'Feedback' page of the Musicworld website. At the top, there is a navigation bar with links for Home, New Release, Category, Album, Artist, Login, and Sign Up. A search bar is also present. The main content area has a light green background and features a title 'Feedback'. It includes several input fields: 'Your Name \*' with value 'Minh Thùy', 'Email \*' with value 'ttmthuya19044@cusc.ctu.edu.vn', 'Subject \*' with value 'Sunflower', and a large 'Message \*' text area containing the placeholder 'Enter Your Message'. Below the message area, a red error message says 'Please enter your message'. A green 'Send' button is located at the bottom right of the form.

Figure 32 –Feedback page on PC

This screenshot shows the same feedback page after the user has clicked the 'Send' button. A modal dialog box appears in the center, displaying a success message: 'This page says' followed by 'Thanks you for submitting your feedback'. There is an 'OK' button at the bottom of the dialog. The rest of the page remains the same, showing the filled-out form and the message area.

T-ARA

Đen Vâu

Sơn Tùng MTP

**Name:** Sơn Tùng MTP  
**Nationality:** Vietnam  
**Birthday:** July 5 1994  
**Genres:** Pop, RB, EDM

Nguyễn Thành Tùng known professionally as Sơn Tùng M-TP , is a Vietnamese singer-songwriter and actor. Born and raised in Thái Bình, Thái Bình Province. In 2017, he had a more-favorable public reception for "Lac trôi" and "Nơi này có anh". That year, Tùng also released the compilation album m-tp M-TP and published his autobiography, Chạm tới giấc mơ. The singer spent four years as part of Văn Production and WePro Entertainment until his record label, M-TP Entertainment, was founded in late 2016. His other works include the M-TP Ambition - Chuyến bay đầu tiên concert tour (2015–2016), a starring role in the 2014 film Dandelion (which earned him a Golden Kite Prize for Young Prominent Actor) and an appearance as a contestant on the television series The Remix. Typically songs:"Chắc Ai Đó Sẽ Về", "Nắng Ấm Xa Distant", "Em Của Ngày Hôm Qua", "Lac Trôi", "Chạy Ngay Đi", "Hãy Trao Cho Anh". Called the "Prince of V-pop" for his popularity, Tùng has received many accolades which include a MTV Europe Music Award, a Dedication Music Award, a Mnet Asian Music Award, seven Green Wave Awards and an inclusion on Forbes Vietnam's 2018 30 Under 30 list.

## Checklist of Validations

Option	Validated
Do all text links lead to the appropriate Web site?	<b>Yes</b>
Do all the image links lead to the appropriate Web site?	<b>Yes</b>
Is the Navigation made smooth throughout the website	<b>Yes</b>
Is the website uniformity?	<b>Yes</b>
Are all the images and links clearly visible on the page?	<b>Yes</b>
Do the “Contact us” page have address of the company?	<b>Yes</b>
Do the Email address links invoke the local mail client from where user can send an email?	<b>Yes</b>
Have the images been localized based on the contract signed with the client?	<b>Yes</b>
Is the Web page opening properly in all the tested Web browsers?	<b>Yes</b>
Is the Web page opening properly in all the tested devices?	<b>Yes</b>
Is the Web page taking too short time to load?	<b>Yes</b>
Is the navigation sequence correct through all the Web pages on the site?	<b>Yes</b>
Is the JavaScript code working as expected in all click events?	<b>Yes</b>
Do the Local storage and Session storage work correctly?	<b>No</b>
Do the Script events for registering, login and loading audio form Website work correctly?	<b>Yes</b>

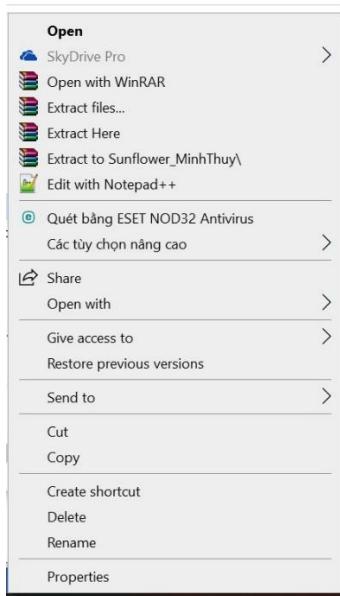

## Submission Checklist

Sr. No.	Particulars	Yes	No	NA	Comment
1	Are all the users able to view the images and links?	Yes			
2	Have all the pages been properly integrated and are completely functional?	Yes			All the modules are properly tested.
3	Are the GUI contents devoid of spelling mistakes?	Yes			
4	Is the application userfriendly?	Yes			
5	Is the Website launching correctly in any browser?	Yes			The LocalStorage and SessionStorage of Internet Explorer browser and Microsoft Edge browser can't work if launching local this Website. Beacaus these 2 browsers default can't use HTML Storage if website launches at local (window.location.href = "file:///...."). If launching website online by using server Domain and Hosting, it will work correctly. Should use Google Chrome, Opera, FireFox to test this website
6	Is the Website launching correctly in any device?	Yes			

## Installation Guide

1. Download to file **eProject\_Group4\_Musicworld.zip** your computer.
2. Unzip file **eProject\_Group4\_Musicworld.zip** by Winrar (link download Winrar: <https://www.rarlab.com>) or use any unzip software.

Click right mouse on file:

Then, click choose Extract files here to unzip.

3. File include:
  - a. **Application:** source code
    - **Graphic:** images, logo, banner (adobe photoshop and illustrator file)
    - **Audio:** songs, album
  - b. **Document:** Project documentation
  - c. **Feedback:** feedback of team
4. Then Open **eProject\_Group4\_Musicworld\application\html\home.html** to launch the web

## User Guide

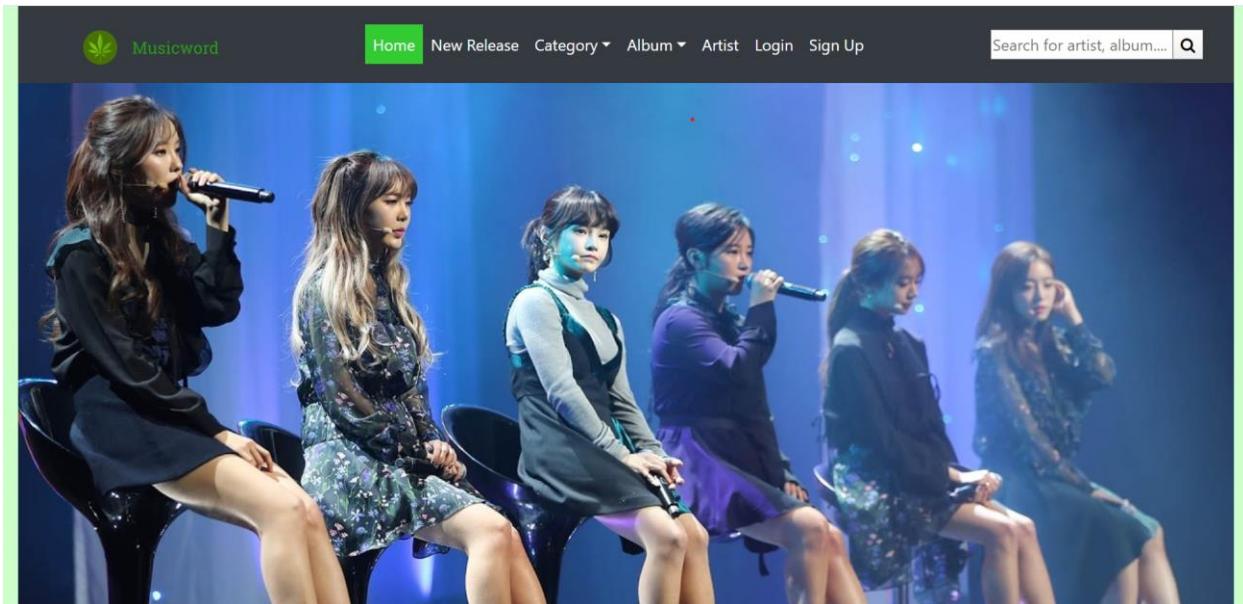

### System Requirements:

Items	Description
Operating System	Windows 7 OS or higher
Software	Browser supports HTML5, CSS3, JavaScript Recommend Google Chrome, Opera

### Run Application:

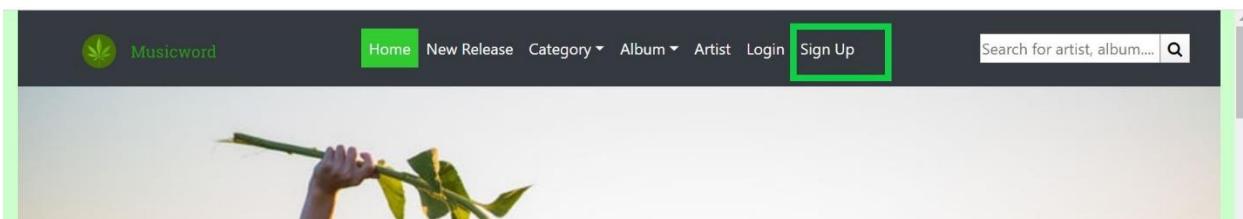

Open file **eProject\_Group4\_Musicworld\application\html\home.html** to launch the web

#### 1. The interface when launch:

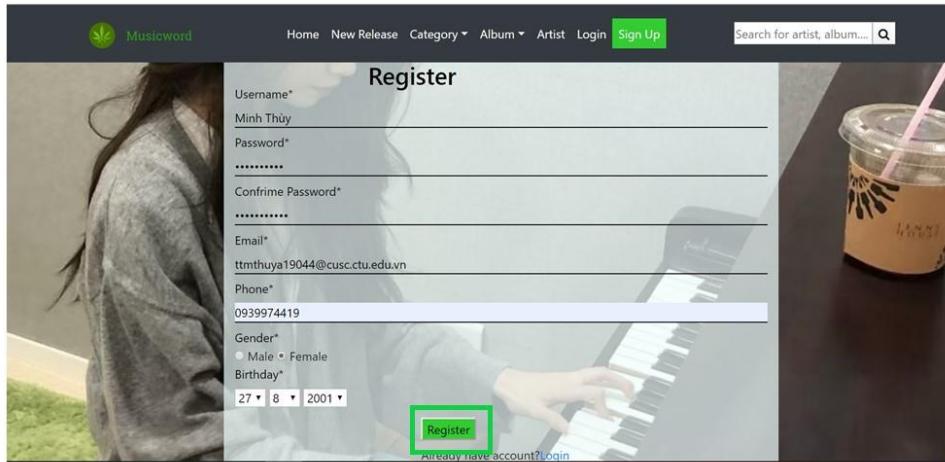

#### 2. Register your account:

Click here to Sign up

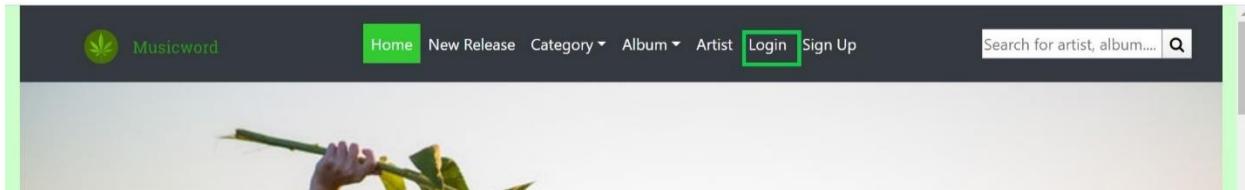

Then fill your information and click Register button at the end of form

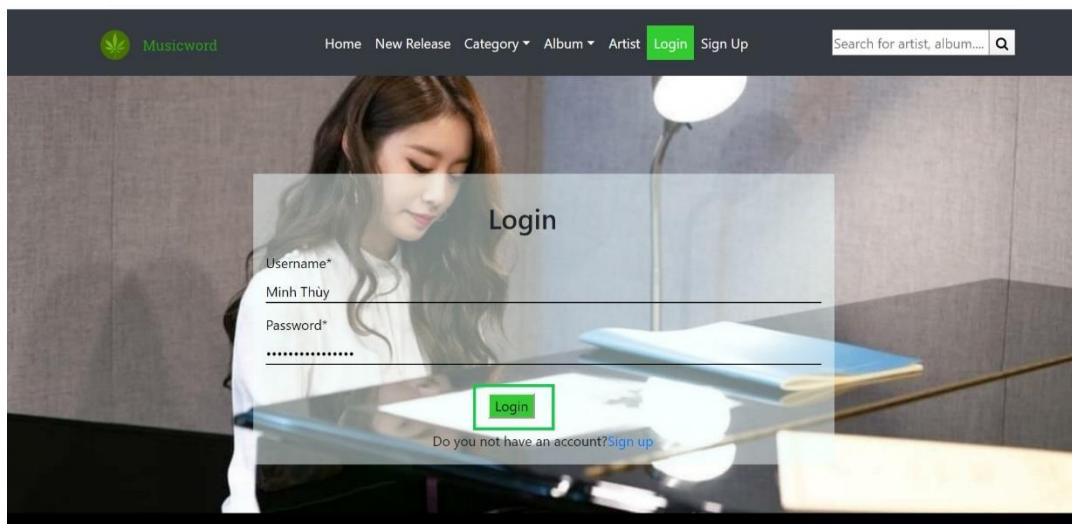

The screenshot shows the Musicworld registration page. The background features a woman in a grey hoodie and a person playing a piano. The registration form includes fields for Username\*, Password\*, Confirm Password\*, Email\*, Phone\*, Gender (Male selected), and Birthday (27-8-2001). A green box highlights the "Register" button.

Then you can login

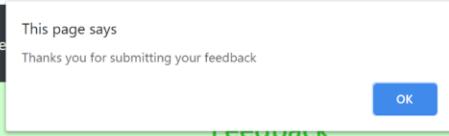

Continue fill your information and click Login button to login

The screenshot shows the Musicworld login page. The background features a woman working at a desk with a lamp and papers. The login form includes fields for Username\* and Password\*. A green box highlights the "Login" button.

You can send feedback for us

Fill information and click Send button to send

This page says  
Thanks you for submitting your feedback

Friday, March 27, 2020

Select the genre you want to hear

Click to button to view artist details

The screenshot shows a music website interface. At the top, there's a navigation bar with links for Home, New Release, Category, Album, Artist (which is highlighted in green), Login, and Sign Up. There's also a search bar and a magnifying glass icon. Below the navigation, a green banner displays the text "Click To View Artist Details". Underneath this, there's a thumbnail image of the K-pop group T-ARA. Next to the thumbnail is a green rectangular button containing the text "T-ARA". Below the thumbnail, there are several descriptive text fields: "Name: T-ARA", "Nationality: Korean", "Debut: July 29 2009", and "Genres: K-pop, J-pop, C-pop, dance pop, ballad, EDM". A detailed paragraph follows, describing T-ARA as a group of six members (Jiyeon, Hyomin, Eunjung, Soyeon, Boram, Qri) signed to MBK Entertainment. It highlights their career achievements, including songs like "Roly-Poly", "Cry Cry", and "Day by Day", which reached the top 2 on Gaon and Korea K-Pop Hot 100 charts. The text notes that they sold over 36 million copies and were considered one of the best-selling Korean girl groups. At the bottom of the screenshot, there are three smaller thumbnail images of individual artists: Đen Vâu, Sơn Tùng MTP, and Nguyễn Hà.
